## HT78XX-A series

### LDO Linear Regulators

#### -Product Introduction

##### HT78XX-A

The series is a positive voltage type voltage stabilizer developed using CMOS technology with low voltage drop, high precision output voltage, and ultra-low power consumption.

Because of the built-in low on-resistance transistor, the output voltage difference is low, and at the same time it has high input voltage tolerance, the maximum working

The voltage can reach 12V, which is suitable for application circuits that require higher voltage resistance.

#### -Product Features

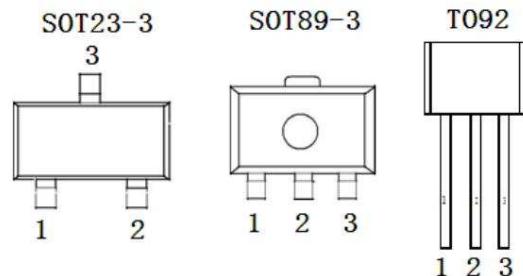

- High output voltage accuracy:  $\pm 3\%$
- Ultra-low power consumption current: typical value 3uA
- Low output voltage temperature drift: typical value 50 ppm/ $^{\circ}\text{C}$
- High input withstand voltage: up to 12V to maintain output voltage regulation
- Package type: TO-92, SOT89-3, SOT23-3

#### -Product Usage

- Regulated power supply for battery-powered equipment
- Regulated power supply for communication equipment
- Regulated power supply for home appliances
- Voltage stabilizer for mobile phones
- and toys
- Regulated power supply for portable medical equipment

#### -Package form and pin function definition

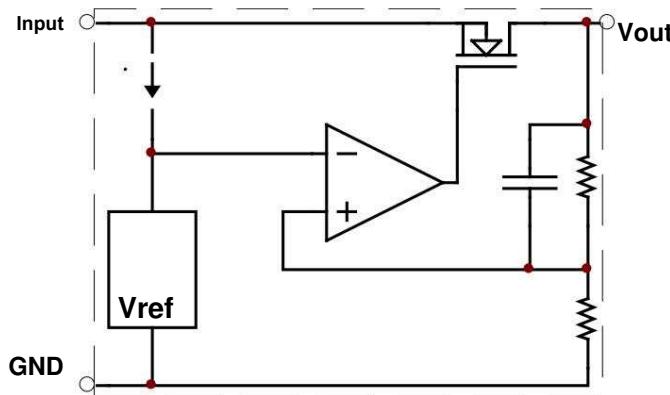

| Pin number |         |         | Pins<br>definition | Functional Description |
|------------|---------|---------|--------------------|------------------------|
| TO-92      | SOT89-3 | SOT23-3 |                    |                        |
| 1          | 1       | 1       | GND                | ground terminal        |
| 2          | 2       | 3       | VIN                | input                  |
| 3          | 3       | 2       | VOUT               | output                 |

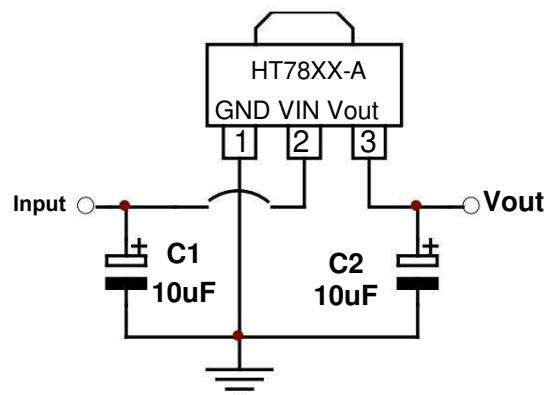

#### -Model selection

| name     | Model    | Maximum Input Voltage (V) | Output Voltage (V) | Tolerance | Package Type               |
|----------|----------|---------------------------|--------------------|-----------|----------------------------|
| HT78XX-A | HT7818-A | 12                        | 1.8                | $\pm 3\%$ | TO92<br>SOT89-3<br>SOT23-3 |
|          | HT7825-A | 12                        | 2.5                | $\pm 3\%$ |                            |
|          | HT7827-A | 12                        | 2.7                | $\pm 3\%$ |                            |
|          | HT7830-A | 12                        | 3.0                | $\pm 3\%$ |                            |
|          | HT7833-A | 12                        | 3.3                | $\pm 3\%$ |                            |
|          | HT7836-A | 12                        | 3.6                | $\pm 3\%$ |                            |
|          | HT7850-A | 12                        | 5.0                | $\pm 3\%$ |                            |
